NEW INSIGHTS INTO BRAIN DYSFUNCTION AND ADDICTION

Research into the body's most complex organ has grown dramatically in recent years, offering new hope and treatment for such illness as addiction. Join the **Greater Detroit Area Health Council (GDAHC)** in partnership with **Health Management Systems of America (HMSA)**, in an opportunity to explore the role metabolism plays in brain dysfunction, the brain/body relationship, and observe case studies of those helped by a relatively new branch of psychiatry, Functional Psychiatry.

WHEN:

Tuesday, March 21, 2017

9:00 AM – 10:00 AM Registration, Networking,
and Continental Breakfast
10:00 AM – 12:00 PM Presentation
12:00 PM – 1:00 PM Lunch

**Online live presentation is available for a reduced fee. Please contact Nicki Gabel for more information. Registration required.

WHERE:

Health Management Systems of America

601 Washington Boulevard
Detroit, MI 48226

GUEST SPEAKERS

Michael Miletic, M.D.

Medical Director of Integrative Health Systems

Jeffrey Leighton, Ph.D. (cand.), MS

President & Co-Founder of Trinity Research Group

ABOUT THE SPEAKERS:

With 26 years as a practicing psychiatrist, Dr. Michael Miletic serves as Medical Director of the Bloomfield Hills, MI-based Integrated Health Systems. As a former Olympic athlete, he's held a number of roles as team psychiatrist and consultant to professional sports teams. Dr. Miletic received his training at the University of Western Ontario, London, Ontario. Jeffrey Leighton, PhD (cand.), MS, is a quantitative EEG technician and president, co-founder of Trinity Research Group.

TRAINING TOPICS:

- An introduction to brain/metabolic dysfunction, its relationship to addiction and the new approach to care that Functional Psychiatry can provide.
- Identify the issues involving and relating to brain dysfunction and addiction.
- Explore the philosophy and research that is propelling the practice and treatments utilized in Functional Psychiatry ahead of more traditional options.
- Develop an improved understanding of the relationship between the brain and body.
